● belongs to standard equipment
○ Combination possible, partly in connection with other components
– Combination not possible or not useful respectively
* Can be used also for enlarger VP 350 (4401)

KAISER® FOTOTECHNIK

Almost all SYSTEM-V components of the previous enlarger generation can be used with the latest models with the following exceptions:

4442 Double Condenser for 6 x 6 cm	Combination not possible
4444 Colour Head	can be used for sizes up to 6 x 7 cm
4445 Multigrade Head	can be used for sizes up to 6 x 7 cm
4446 B & W Head	can be used for sizes up to 6 x 7 cm
4483 Compound Negative Carrier	Combination not possible
4484 Compound Neg. Carr., 7 x 7 cm	Combination not possible

Slide Copying:
The compound negative carrier 4583 doesn't suit on the old colour head 4444 in upside-down-position. On the other hand the old compound negative carrier can be used on the colour head 4544 in upside-down-position.

Converting into copy stand:
The enlargers of the latest device generation can be converted into a copy stand with the components of the repro system R1.
