About GUTEK

“Protect · Explore · Create”

At NANGUANG, we share the same passion for visual storytelling as our users do, and we genuinely comprehend the need of reliable protection for professional equipment in challenging environments. We aspire to merge our deep understanding of this need with exceptional industrial design, aiming to introduce innovative possibilities to the equipment protection market.

GUTEK, a brand within the NANGUANG family, is dedicated to designing and manufacturing high-quality protective cases tailored for safeguarding professional equipment across diverse industries.

The name “GUTEK” is derived from its Chinese counterpart “固道” (GU DAO). The Chinese character “GU” conveys attributes of solidity, strength, and unyielding stability. Meanwhile, the character “DAO”, beyond its literal implications of way and method, holds a profound philosophical connotation representing the inherent order and flow of everything in the universe, which precisely mirrors the essence of TECHNOLOGY. Hence, we combined “GU” and “TEK” (the abbreviation of technology) to give birth to our new brand – GUTEK.

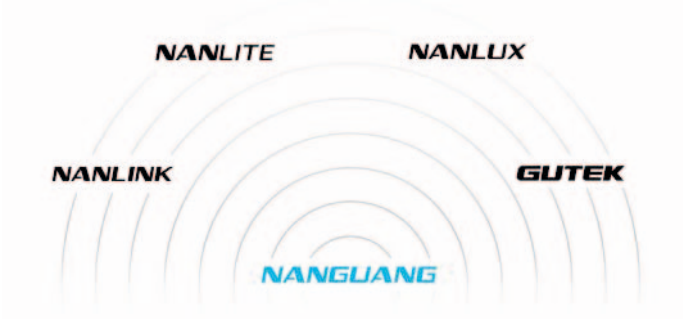

NANGUANG’s extensive industrial design insight has woven distinctive design DNA into GUTEK: the recently unveiled “Tortoise” series draws inspiration from the imagery of “Tortoise Shell”, embodying a design philosophy rooted in robustness and reliability. Our dedication to the design of detail and a diverse array of accessories ensures our users a user-friendly experience. With more than 30 years of experience in industrial manufacturing, NANGUANG stands as a robust testament to the product quality of GUTEK. Made from high-quality flame-retardant materials, produced through strictly controlled manufacturing procedures, and subjected to rigorous testings, each GUTEK product is delivered to our users with utmost assurance.

We believe that GUTEK will securely PROTECT your professional equipment, empowering you to bravely EXPLORE the unexplored, and CREATE what you want to create.

About NANGUANG

Established in 1992, Guangdong NANGUANG Photo & Video Systems Co.,Ltd. is an award-winning company specializing in designing and manufacturing top-tier products and solutions for the photography, filmmaking, and content creation industries. NANGUANG's primary focus includes professional lighting solutions and equipment protection solutions, featuring brands like NANLUX, NANLITE, NANLINK, and GUTEK. With extensive expertise in design, R&D, and manufacturing, supported by advanced production facility, NANGUANG is committed to delivering products that consistently uphold the highest standards of quality and performance.

Tortoise Series

Protector Case

T-230

T-300

The new Tortoise series of hard cases from GUTEK are strong, durable and lightweight. Made for filmmakers, gaffers, creators and explorers, the rugged GUTEK T-230/300 protector case will safeguard your valuable equipment wherever your next adventure takes you. From deserts to oceans, to jungles or just down the road, the GUTEK T-230/300 offers maximum protection with minimum bulk and weight.

Better by Design

The DNA of the GUTEK range is born out of NANGUANG's extensive industrial design expertise. Drawing inspiration from the natural strength of the tortoiseshell the designers engineered the T-230/300 to provide a robust, reliable safeguard in every situation. Structural elements are computer-designed in-house and rigorously tested at every stage to deliver professional-grade protection.

The GUTEK T-230/300 is available in two colors: classic black or olive drab green.

Robust Protection

Securely Sealed

Featuring an IP67 rating for dust and waterproof protection, safeguarding against rain, snow, sandstorms, and more.

Robustly Built

High-intensity resistance to pressure and shock, remaining intact even under severe external impacts.

Flame Retardant

Constructed from high-quality modified Polypropylene material, with a flame retardant rating of V-2.

Temperature-resistant

Enduring extreme cold and heat, protecting your equipment from -50°C - 80°C.

Securely Locked

Press-Pull Latch

Two "Press-Pull" latches ensure reliable closure and prevention of accidental opening.

Lock Hole

There are stainless steel lock holes for padlocks if additional security is required.

Waterproof Purge Valve

The case also features a waterproof purge valve that automatically regulates air pressure within the case.

Convenient Transportation

Weighing 2.77kg when empty, the Tortoise T-230 is a 16-inch protector case featuring a fully rubber-covered handle, making it suitable for various uses and convenient for transportation.

Weighing 5.16kg when empty, the Tortoise T-300 is a 20-inch carry-on protector case featuring a retractable handle and durable wheels, making it suitable for various uses and convenient for transportation.

The Tortoise series features a stackable design, allowing multiple cases to be stably stacked for easy storage and transportation.

Optional Accessories for Further Versatility

AS-MSL
Motion Sensor LED Light

The optional GUTEK Motion Sensor LED Light attaches to the lid interior to automatically illuminate the case when opened, perfect for use in low-light environments.

Art.-Nr.: 9548313
UVP: EUR 25,00

AS-LO-T300
Protector Case Lid Organizer for T-300

For additional storage, the T-300 case lid organizer can be secured to the lid interior. Designed with five sturdy mesh pockets, it can store various small tools and items for rapid access.

Art.-Nr.: 9548307
UVP: EUR 35,00

Die angegebenen Preise sind UVPs inkl. 19% MwSt.

AS-DV-T300
Protector Case Divider Kit for T-300

The divider panels in this kit can be cut to the desired length and assembled using the provided U-pins within the case. Combined with the convoluted lid foam and bottom foam, this kit enables users to customize the layout and fully utilize the interior space of the case.

Art.-Nr.: 9548303
UVP: EUR 95,00

AS-EDV-T300
Protector Case Extra Divider for T-300

The protector case extra divider can be used to separate the internal space of the T-300. Besides the T-300 Protector Case Divider Kit (AS-DV-T300), it offers additional internal space layout options for the T-300.

Art.-Nr.: 9548305
UVP: EUR 15,00

Tortoise Series

T-MCC-1

Memory Card Case

The image features a collection of memory cards and camera equipment. In the foreground, there are several clear plastic protective cases for memory cards. One case is open, showing a Lexar 128GB 2000x card and a Lexar 256GB 2000x card. Another case contains a Lexar 256GB 2000x card and a Lexar 320GB card. A third case is open, showing a Sony Tough 128GB card and a Lexar 256GB 2000x card. A fourth case is closed, with the 'GUTEK' logo visible on the lid. In the background, a camera lens is visible, with 'SERIES T-300 PROTCETOR C' printed on it. The overall scene is set against a dark, textured background.

In every production, safeguarding memory cards is paramount, as they contain invaluable data.

Introducing the T-MCC-1 Memory Card Case, meticulously designed with a deep understanding of memory card protection. Each design detail ensures a reassuring and distinctive protective experience for users.

Better by Design

NANGUANG's extensive industrial design insight has woven distinctive design DNA into GUTEK: the T-MCC-1 Memory Card Case draws inspiration from the imagery of "Tortoise Shell", embodying a design philosophy rooted in robustness and reliability.

Keeping track of your memory cards is much easier thanks to the innovative translucent material construction of the T-MCC-1. Users can instantly see what cards are inside the case for peace of mind.

Robust Protection

Securely Sealed

Featuring an IP67 rating for dust and waterproof protection, provides the same level of rigorous protection as the Tortoise protector cases.

Safe Storage

Internally equipped with silicone card slots, effectively securing and protecting the memory cards.

Flame Retardant

Constructed from high-quality modified Polycarbonate material, with a flame retardant rating of V-2.

Temperature-resistant

Enduring extreme cold and heat, protecting your memory cards from -50°C to 120°C.

Lightweight and Portable

The palm-sized GUTEK T-MCC-1 will fit comfortably in your jacket, camera bag or gear pouch. It weighs a mere 110.8g when empty, making it extremely portable.

The case is equipped with a hanging hole, allowing users to enhance portability and security by attach it with the included strap.

32 Cards in One Case

The interior features a nested card slot design, capable of simultaneously accommodating a total of up to 32 memory cards including: 12 TF (Micro SD) cards, 8 CFE-A cards, 8 SD cards, 4 CF/CFast cards or CFE-B/XQD cards. This comprehensive design truly meets the storage needs of the professional photographer or filmmaker.

Note:

CFE-A stands for CFexpress Type-A;

CFE-B stands for CFexpress Type-B;

CF stands for CompactFlash;

CFast card and CF card are the same size and can share the same slot;

CFE-B card and XQD card are the same size and can share the same slot.

GUTEK

Dedication to User Experience

180° Maximum Opening

The case is designed to open up to a maximum of 180°, ensuring no cards will accidentally fall out when opening the case in your palm.

Card Eject Pin

The case is equipped with a card eject pin for easy access to memory card.

Includes

T-MCC-1 Memory Card Case × 1

T-MCC-1 Strap × 1

Card Eject Pin × 1

User Manual × 1
